

**REMARKS**

The Examiner requests in the Notice to Comply that the two nucleic acid sequences on page 35 of the specification be identified with "SEQ ID NOs." In view of the above amendment, applicant believes that the requirement of the Examiner has been satisfied and complies with sequence rules 37 CFR 1.821 – 1.825. Further, applicant has taken the opportunity to correct the polarity of SEQ. ID NO. 4. These amendments add no new matter to this application as the polarity of SEQ. ID. NO. 4, as amended herein, is identical to that of SEQ. ID. NO. 4 of the sequence listing that accompanied the originally filed application.

Submitted herewith electronically via EFS-Web is a computer readable form (CRF) of the Sequence Listing as a .txt file. The Sequence Listing contained in the CRF is identical to that of the paper copy of the Sequence Listing. This amendment contains no new matter. Entry is respectfully requested.

Applicant submits that this amendment, the accompanying CRF, and the paper copy thereof serve to place this application in compliance with rules 37 C.F.R. §§ 1.821-1.825.
